

The background of the entire image is a solid red color. Overlaid on this background is a large, circular pattern of small, light red dots. These dots are arranged in concentric circles, with the density of the dots increasing towards the center, creating a halftone or dot-matrix effect. The dots are slightly offset from each other, giving the pattern a sense of depth and movement.

ONE LOVE. ONE FUTURE.

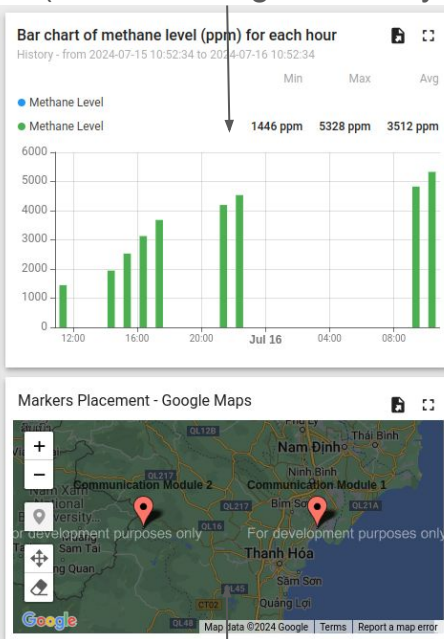

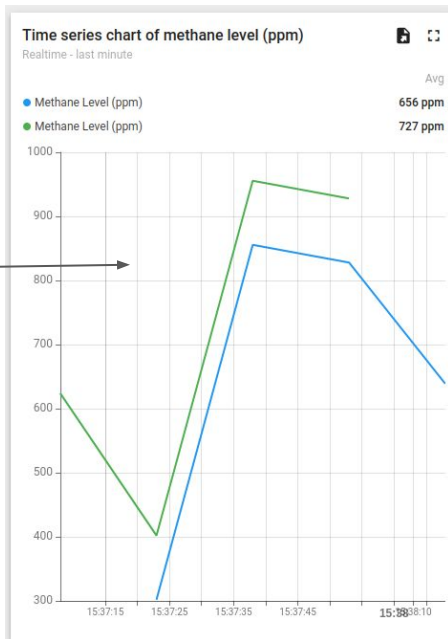

The background is a solid red color. Overlaid on this is a large, circular pattern of small white dots. The dots are arranged in concentric circles, with the density of the dots increasing towards the center, creating a halftone or optical illusion effect.

Presentation of Human-Machine Interfaces

User Interface

Daily mean methane level representation grouping by hour
(can be change manually)

Evolution of methane level in real time in a minute window

Alarms			
☐ History - last 7 days	Created time ↓	Originator	Type
☐	2024-07-26 15:14:09	Methane Sensor 2	User Interface Methane Alarm
☐	2024-07-26 15:14:09	Methane Sensor 2	Sensoring Threshold Exceeded
